

## Numbers

- 16-bit mode, limitations, 91
- 8 bits versus 16 bits per channel, 90–91

## A

- Add Folder to Favorites command, 16
- additive color model, 424
  - (see also Video Lesson 12 on the CD)
- adjustment layers, 375, 378
  - creating and modifying, 405–418
  - Hue/Saturation, 408, 417
  - Invert, 407, 412
  - Levels, 407
  - Threshold, 412
  - versus layer effects, 379
- adjustments, applying, canceling, and undoing, 36
- Adobe Caslon Pro typeface, 334
- Adobe Creative Suite, 334
- Adobe Every-line Composer command, 342
- Adobe Reader software, 30
- Adobe RGB (1998) workspace, 92
- advance to next option, 64
- Aligned check box, 201
- alpha channels, 234–237, 291
  - (see also Video Lessons 7 and 9 on the CD)
- Anti-aliased check box (Drop Shadow setting), 383
- antialiasing, 105
  - text, 341
  - (see also Video Lesson 6 on the CD)
- Arc Lower option, 370
- area text, 337
- Assign Profile command, 440

- automatically sensing image outline
  - (see Video Lesson 4 on the CD)
- automatic image correction, 38–44
- Auto Color command, 36, 39, 72
  - adjusting brightness, 45
  - how it works, 43
  - (see also Video Lesson 2 on the CD)
- Auto Contrast command, 39, 292
  - how it works, 43
  - (see also Video Lesson 2 on the CD)
- Auto Levels command, 36, 39
  - how it works, 43
  - (see also Video Lesson 2 on the CD)
- averaging colors of neighboring pixels, 257–265

## B

- backlighting, compensating for, 57–60
- baseline shift, 368
- batch renaming of images, 23–26
- Best Workflow color settings, xvi
- Bevel and Emboss effect, 149
  - duplicating, 150
  - Gloss Contour option, 394
  - settings, 392–393
  - simulating reflections, 391–397
  - (see also Video Lesson 11 on the CD)
- Bicubic, Bicubic Smoother, Bicubic Sharper, interpolation 153
- bit depth, 90–91
- Blend Clipped Layers as Group check-box (Layer Style), 398
- Blending command, 232–233
- blending multiple images, 306
- Blending Options panel (Layer Style), 313, 404

- Blend Interior Effects as Group check-box (Layer Style), 398, 401, 402
- Blend Mode option (Inner Shadow setting), 384
- blend mode pop-up menu, 177
- blown highlights (see Video Lesson 2 on the CD)
- blurring, 105, 248
  - (see also Video Lesson 4 on the CD)
- Blur submenu, 248
- bracket keys, 160
  - (see also Video Lesson 6 on the CD)
- brightness, 37–38
  - adjusting levels, 44–51
  - Auto Color command, 45
  - (see also Video Lesson 2 on the CD)
- Brightness/Contrast command, 36
  - (see also Video Lesson 2 on the CD)
- brightness curve, 52
  - adjusting, 54
- brightness graph (Curves dialog box), 52
  - adding points, 54
  - expanding, 53
  - rounding off rough corners, 53
- Brightness Jitter, 169
- Bring to Front command, 301
- broken images, repairing, 192–202
- Browse command (File menu), 5
- Brushes palette, 168
- brush engine, 161
  - (see also Video Lesson 6 on the CD)
- brush tool, 215
  - default settings, 216
  - (see also Video Lesson 6 on the CD)
- burn tool, 161, 181–184, 190

## C

- cache files (File Browser), 15, 17
- Calculations command, 208, 232, 235
- calibrating Camera Raw settings, 88
- calibration, printer, 428, 446
- camera raw format files
  - correcting, 81–94
    - Photoshop supported cameras, 81
    - (see also Video Lesson 3 on the CD)
- Camera Raw window, 82–94
  - bit depth and image size, 92
  - Brightness setting, 85
  - Calibrate tab, 88
  - Chromatic Aberration B/Y, 88
  - Chromatic Aberration R/C, 88
  - Color Noise Reduction value, 86
  - Contrast slider, 85
  - Depth option, 92
  - Detail tab, 85
  - Exposure and Shadows values, 84
  - Luminance Smoothing value, 86
  - opening file in, 82
  - Resolution value, 93
  - Saturation value, 85
  - Sharpness value, 85
  - Smoothing value, 85
  - Temperature value, 83
  - Tint, 83
  - Vignetting Amount option, 88
  - White Balance controls, 83
- Canvas Extension Color option, 149
- Canvas Size command, 134, 142, 148
  - (see also Video Lesson 5 on the CD)
- cast shadow, 347
- catalogs, printing, 30
- CD, training (see training CD)
- Change Layer Content submenu, 418
- channels, 40–41
  - 8 bits versus 16 bits per channel, 90–91
  - converting to selection outlines, 166
  - creating a mask from, 230–237
  - duplicating, 234
  - hiding colors in Histogram, 57
  - showing all colors in Histogram, 52
  - (see also alpha channels)
- Channels palette, 217
  - loading a mask, 238
  - (see also Video Lessons 7 and 12 on the CD)
- characterize a CMYK device, 436
- characters, converting outlines to shapes, 412
- Character palette, 342, 346
- chroma, 65
- chromatic aberration, 87
- circles
  - drawing, 365
  - wrapping text around, 364–372
- cleanup tool, 228
- clipping, 48, 67
  - (see Video Lesson 5 on the CD)
- clipping mask, 307
  - shortcuts to creating, 311
  - (see also Video Lesson 9 on the CD)
- cloning elements, 162, 163
- closing all images, 44
- CMY to CMYK, 444–445
- CMYK color channels, switch between, 422
- CMYK Color command, 436, 438, 443
- CMYK color model
  - black generation, 444
  - total ink limit, 444
- CMYK file preparation for commercial reproduction, 436–446
- CMYK profile, 440
- CMYK versus RGB, 424
  - (see also Video Lesson 12 on the CD)
- color balance, correcting, 63–95
  - (see also Video Lesson 3 on the CD)
- Color Balance command, 64
  - (see also Video Lesson 3 on the CD)
- color cast, fixing, 66–71
- color channels, 40–41
  - 8 bits versus 16 bits per channel, 90–91
  - hiding in Histogram palette, 57
  - showing all in Histogram palette, 52
- color correction
  - (see image correction; Video Lesson 2 on the CD)
- Color Dynamics settings, 169
- Colored Fills blend mode, 178
- coloring scanned line art, 162–171
  - filling spaces between lines, 171–180
- Colorize check box (Hue/Saturation command), 77
- colorizing
  - grayscale image, 75–81
  - selected background
    - (see Video Lesson 4 on the CD)
- colors
  - complementary, 68
  - converting from RGB to CMYK, 431
- ColorSync profile, 436
- color intensity, 65
- color management, disabling, 440
- Color Management option (print dialog box), 428, 431
- Color mode, 188
- color notation in title bar, 7
- Color Overlay effect, 385, 402, 413
- Color palette, 168, 346
- Color Picker, 344
  - (see also Video Lesson 9 on the CD)
- color ranges, 190
- Color Range command, 209–214, 261
  - black-and-white preview, 210
  - combining quick mask mode, 214–222
  - Fuzziness value, 210
  - previewing mask, 211
  - (see also Video Lesson 7 on the CD)
- color replacement tool, 161, 181, 188
- color separation, commercial, 424
- Color Settings command, xvi, 437, 440
- Color Settings options, 7
- color spectrum wheel, visible, 69
- Color Target style (see Video Lesson 11 on the CD)
- color theory (see Video Lesson 12 on the CD)
- color warnings, disabling, 7
- commands
  - followed by three dots, 8
- commercial color separation, 424
- commercial prepress process, 436–446
  - (see also Video Lesson 12 on the CD)
- complementary colors, 68
- compression patterns, 266
- Constrain Proportions option, 155
- contact sheet
  - converting color space, 28
  - saving to disk, 28
- Contact Sheet II command, 26–30
- Contract command, 241
- contrast, 37–38
  - decreasing, 44
  - (see also Video Lesson 2 on the CD)
- Convert to Shape command, 412

- Copper gradient, 80
  - copyright
    - marking an image as being copy-  
righted, 21
    - statements and metadata, 17
    - symbol, 21
  - corner point, 127
  - corners, smoothing, 130
  - corrections, order best applied, 35
  - corrective filters, 248–249
  - Create Clipping Mask command, 179, 311
  - crooked photos, straightening, 139–144
  - Crop and Straighten Photos command, 138
  - cropping
    - auto crop and straighten, 136–139
    - crop boundary, 146
    - interpolation and, 136
  - crop tool, 134, 144–150  
(*see also* Video Lesson 5 on the CD)
  - CRW file extension, 81
  - cursor, 8
  - curved mask, 309
  - curves, 36
    - drawing precise, 122–130
  - Curves command, 51–56
    - brightness graph, 52
    - (*see also* Video Lesson 2 on the CD)
  - Custom CMYK option, 441
  - custom shape library, 361
  - custom shape tool, 360
  - Custom Text setting, 449
- D**
- Darken bend mode, 165
  - DCR file extension, 81
  - Deke Keys shortcuts, xvii
  - Desaturate mode option, 186
  - deselection tools (*see* Video Lesson 4  
on the CD)
  - Deselect command, 116
  - dialog boxes, 8
  - Difference Clouds filter, 120
  - digital cameras and metadata, 17
  - distorting text, 350
  - docking palette panels, 9
  - docking well, 8
  - Document Bounds command, 198
  - dodge tool, 181, 182, 190
    - creating masks, 236
  - Don't Color Manage This Document  
option, 440
  - dot gain, defined, 441
  - Dot Gain value, adjusting, 441–443
  - downsampling an image, 153
    - saving as separate file, 156
    - (*see also* Video Lesson 5 on the CD)
  - dragging and spacebar, 118
  - Drag Selection command, 214
  - drag with a Shift-drop, 104
  - drawing and editing shapes, 351–363
  - drawing tablets (*see* Video Lesson 6 on  
the CD)
  - Drop Shadow command, 295
  - Drop Shadow effect, 380–386, 415  
settings, 383  
(*see also* Video Lesson 11 on the  
CD)
  - drop shadows, 295, 331, 377
    - changing angle and distance, 382
  - Duotone command, 78
  - Duplicate command, 38, 45  
(*see also* Video Lesson 11 on the  
CD)
  - duplicating shapes, 354
    - series duplication, 356
  - dust, 266
- E**
- edge highlighter tool, 224
    - changing highlight color, 225
    - (*see also* Video Lesson 7 on the CD)
  - edge mask, 266–276
  - edges
    - defining, 209
    - (*see also* Video Lesson 7 on the CD)
  - edge touchup tool, 227
  - editing tools, 161, 191
  - effects
    - averaging colors of neighboring  
pixels, 257–265
    - blurring focus, 257–265
    - copying, 350
    - fading, using Luminosity mode,  
256
    - highlighting visual edges in an  
image, 266–276
    - parametric, 306–318
    - sharpening images, 249–257  
(*see also* filters; layer effects)
  - ellipse tool, 123, 365
  - Free Transform Path, 123
  - elliptical marquee tool, 98, 110, 117, 291  
(*see also* Video Lesson 4 on the CD)
  - emailing images, 152
  - Emboss effect (*see* Bevel and Emboss  
effect)
  - every-line composer, 343
  - Exchangeable Image File (EXIF), 19
  - EXIF (metadata category), 19
  - Expand command, 200
  - expanded view, 11
  - Export Cache command (File menu),  
15, 17
  - Exposure value, 182, 186
  - extensions, adding to filename, 25
  - Extract command, 223
    - losing pixels, 229
    - previewing images, 227
    - Smart Highlighting option, 226  
(*see also* Video Lesson 7 on the CD)
  - eyeballs (layer selections), 287
  - eyedropper tool, 114
- F**
- Fade Auto Color command, 72
  - Fade command, 165, 259  
(*see also* Video Lesson 8 on the CD)
  - Fade the Variations command, 71
  - fading effects using Luminosity mode,  
256
  - favorite folders, 16
  - Feather command, 110, 241, 259  
(*see also* Video Lesson 4 on the CD)
  - Feather Radius value, 110
  - Fibers filter, 120
  - Field layer, 356
  - File Browser, 5
    - Batch Rename, 24
    - cache files, 15, 17
    - changing size of thumbnails, 11
    - closing as an image opens, 7
    - Flagged Files command, 14
    - organizing photos, 10–17
    - reversing operations (undoing), 13
    - viewing more details in, 6  
(*see also* thumbnails)
  - File Browser button, 10
  - file format options, 29
  - File menu
    - Browse command, 5
    - Export Cache command, 15, 17
    - Open command, 5
  - File Properties (metadata category), 19

- filling screen with image, 4
- filling selection with color, 180
- fill opacity, 388
- fills
  - adding, 171–180
  - undoing, 175
- film grain, 266
- filtering basics, 245–277
  - (see also Video Lesson 8 on the CD)
- filters
  - corrective, 248–249
  - Difference Clouds, 120
  - Emboss (see Bevel and Emboss effect)
  - Fibers, 120
  - Find Edges, 249
  - Gaussian Blur, 105
  - High Pass (see High Pass filter)
  - Maximum, 249
  - Median (see Median filter)
  - repeating, 120
  - Unsharp Mask (see Unsharp Mask filter)
  - (see also Video Lessons 7 and 8 on the CD)
- Find Edges filter, 249
- fitting image to window (see Video Lesson 1 on the CD)
- Flagged Files command (File Browser), 14
- flash photography, compensating for, 57–60
  - (see also Video Lesson 2 on the CD)
- flat file image settings, 426
- Flatten All Layers option, 450
- Flatten Image command, 426
- flipping images, 294
- Flip Horizontal command, 164
- Float selection command, 280
  - (see also Video Lesson 9 on the CD)
- Flow value, 186
- focus, adjusting, 245–277
- folder tree, 5
- fonts, 334
  - changing
    - setting bold and italic, 338
  - (see also text; Video Lesson 10 on the CD)
- foreground color, setting to black, 216
- formatting attributes (text), 334
- Fractional Widths command, 342
- free-form outlines, 122–130

- free-form selection tools (see Video Lesson 4 on the CD)
- freehand tools, 115–120
- Free Transform command, 163, 289
- free transform mode, 124, 163, 289, 348
  - multiple operations within, 303
- fringing, 223
  - (see also Video Lesson 7 on the CD)
- F-stop increments, 84
  - (see also Video Lesson 3 on the CD)
- full-screen mode, hiding/showing
  - menu bar in, 4
  - (see also Video Lesson 1 on the CD)
- fuzzifying selection (see Video Lesson 4 on the CD)
- Fuzziness value, 210

**G**

- gamma value, 50
- gang scanning, 136
- Gaussian Blur filter, 105, 218, 248, 257–265, 271
  - creating soft shadows, 348
  - reapplying with different Radius value, 260
- Gloss Contour option (Bevel and Emboss), 394
- glows, 386–391
- Gradient command, 357
- Gradient Editor, 79
- Gradient Fill command, 363
- Gradient Map command, 76, 78–81, 378
  - Quadtone Supreme swatch, 78
- gradient mask, 358
- Gradient Overlay effect, 400
  - (see also Video Lesson 11 on the CD)
- gradient settings, adjusting, 221
- gradient tool, 172, 358, 409
  - (see also Video Lesson 9 on the CD)
- grainy photos, cleaning, 266–276
- grayscale images, colorizing, 75–81
- guidelines
  - adding, 339
  - deleting, 340
  - hiding, 341
  - moving, 340
  - showing, 333
- Guides command, 333

**H**

- halos, 106
  - (see also Video Lesson 7 on the CD)
- hand tool, 4
  - (see also Video Lesson 1 on the CD)
- hard brush, 194
- hard edge selection (see Video Lesson 4 on the CD)
- Hard Light mode, 356
- Hard Light option, 177
- Hardness value (brush palette), 168
- healing brush, 162, 191–202
  - default options, 192
  - hard brush, 194
  - Mode options, 197
  - setting opacity, 197
  - source point, 193, 195
- healing tools, 162
- hiding/showing toolbox and palettes, 4, 9
- high-contrast images, 60
- highlights
  - protecting, 190
  - tempering (see Video Lesson 2 on the CD)
- High Pass filter, 249, 255, 274
- histograms, 48–49
  - black and white points, 48
  - clipping, 48
- Histogram palette, 51–56
  - expanded view, 52
  - hiding color channels, 57
  - showing all color channels, 52
- history brush, 162
- History palette, 183, 185, 260
  - combining with Layer Comp palette, 319
  - (see also Video Lesson 9 on the CD)
- hotness, reducing (see Video Lessons 2 and 9 on the CD)
- Hue Jitter, 169
- Hue mode option, 189
- Hue/Saturation adjustment layer, 408, 417
- Hue/Saturation command, 50, 64, 72–75, 265
  - Colorize check box, 77
  - visible color spectrum wheel and, 69
  - (see also Video Lessons 3 and 4 on the CD)

## I

ICC profile, 436  
Image Compression option (TIFF), 29  
image correction  
    automatic, 38–44  
    with Curves command, 51–56  
    (see also color correction)  
images  
    batch renaming, 23–26  
    blending multiple, 306  
    duplicating, 38  
    filling screen with image, 4  
    fitting to window  
        (see Video Lesson 1 on the CD)  
    managing, 10–17  
        (see also thumbnails)  
    packing multiple images on single  
        page, 447–452  
    sharpening, 59  
    switching between layer mask and,  
        310  
Image Size command, 134, 150–156  
    (see also Video Lessons 5 and 10 on  
    the CD)  
image windows, 8  
    resizing, 9  
    status bar, 9  
importing layers, 291–305  
Info palette, showing/hiding, 134  
    (see also Video Lesson 5 on the CD)  
inkjet printers  
    photo-quality prints, 432  
    printing to, 425–435  
Inner Glow effect, 106, 386  
Inner Shadow command, 296  
Inner Shadow effect, 383–386  
    settings, 384  
interface and image window, 8–9  
International Press Telecom-  
    munications Council  
    (IPTC), 19  
interpolation, 136  
    settings, 153  
Inverse command, 103, 259  
    (see also Video Lesson 4 on the CD)  
Invert adjustment layer, 407, 412  
Invert command, 111, 270  
    masking and, 232–233  
IPTC (metadata category), 19  
    modifying, 21  
isolating color, 74  
isolating image element, 99

## J

Jitter values, 169  
justify text, 343

## K

 Luminosity blend mode, 407  
 Luminosity mode, 256  
 LZW (Image Compression option), 29

## M

magic wand tool, 199  
 Anti-aliased check box, 101  
 Contiguous option, 101  
 Grow command, 102  
 selecting colored areas with, 100–107  
 Similar command, 102  
 Tolerance value, 101, 102  
 (*see also* Video Lesson 4 on the CD)  
 magnetic lasso tool, 121  
 magnifying a region, 4  
 magnifying glass tool  
 (*see* Video Lesson 1 on the CD)  
 managing images, 10–17  
 (*see also* thumbnails)

marqueeing specific areas (*see* Video Lesson 1 on the CD)

marquee tool, 98, 108–115  
(*see also* Video Lesson 4 on the CD)

masking, 205–243  
 adding base colors to selection, 211  
 adjusting gradient settings, 221  
 comparing masks, 222  
 creating from scratch, 230–237  
 foreground color, setting to black, 216  
 loading a mask, 238  
 too many grays, 218  
 using a mask, 238–242  
 (*see also* Video Lesson 7 on the CD)

masks, curved, 309

Master Diameter value (brush palette), 168

Match Color command, 112, 113, 239

Maximum filter, 249

measure tool, 140

Median filter, 249, 262–265, 271

menu bar, 8  
 showing in full-screen mode, 4

Merge Down command, 299

metadata, 17–23  
 as permanent addition to file, 23  
 categories, 19  
 templates, 22

Metadata Display Options command, 20

Metadata panel, 18

Metal Landscape pattern, 177

midtones, 47, 190  
 (*see also* Video Lesson 3 on the CD)

Minimum command, 176

mouse, two button, 9

multi-channel document (*see* Video Lesson 12 on the CD)

Multiply blend mode, 179, 240, 287, 348  
 (*see also* Video Lesson 10 on the CD)

Multiply mode, 188

## N

NEF file extension, 81

noise, 266

Noise filter, 262–265, 271

Noise submenu, 248

Normal blend mode, 241

Nudge numerical value, 64

## O

Olympus Raw Format (.orf), 82  
 (*see also* Video Lesson 3 on the CD)

opacity  
 reducing, 348  
 restoring to 100%, 303  
 temporarily adjusting, 301

Opacity value, 71, 170, 180

Open command (File menu), 5

options bar  
 hiding/showing, 9  
 restoring, 9

order of image edits, 136

ORF file extension, 82  
 (*see also* Video Lesson 3 on the CD)

Outer Bevel effect, 149

Outer Glow effect, 386, 389–391  
 settings, 390

Overlay blend mode, 276, 369

Overlay mode, 170

## P

Page Setup button, 427

Page Up/Page Down keys  
 (*see* Video Lesson 1 on the CD)

paintbrush tool (*see* brush tool)

painting tools, 161, 167

paint bucket tool, 172  
 options, 172–173  
 (*see also* Video Lesson 7 on the CD)

palettes  
 freestanding versus docked, 8  
 hiding/showing, 4, 9  
 multiple panels, 9

Paragraph palette, 342, 346

parametric effects, 306–318

patch tool, 162, 191, 197–202  
 default settings, 198  
 polygonal, 198

path outlines  
 joining, 128  
 (*see also* Video Lesson 10 on the CD)

paths  
 deactivating, 287  
 layers and, 285

 Save Settings button, 434  
 source and destination options, 428  
 thumbnails, 26–30  
 to inkjet printer, 424, 425–435

Print dialog box, 428

print quality, 430

print resolution, 151  
 modifying, 154  
 (*see also* Video Lesson 5 on the CD)

print size, changing, 154

Print with Preview command, 427–435

Proceed button, 134  
(*see also* Video Lesson 5 on the CD)  
process colors, 436  
purity, 65

## Q

Quadtone Supreme swatch, 78  
quick mask mode, 214–222  
Quick Mask Options command, 215  
QuickTime download page, xv

## R

Radius values, 59  
RAF file extension, 81  
Range menu, 190  
raster art, 331  
RAW format files (*see* camera raw format files)  
rectangle tool, 123  
rectangular marquee tool, 98, 112  
    fixing image boundaries with, 219  
    (*see also* Video Lesson 4 on the CD)  
red-eye, correcting, 189  
red overlay, based on a traditional  
    rbylith, 215  
reflections, simulating, 391–397  
Relative changes, 143  
renaming images in batches, 23–26  
repairing broken images, 192–202  
Resample Image option, 151, 153  
    (*see also* Video Lesson 5 on the CD)  
Reset Tool command, 192  
resizing images, 150–156  
resolution  
    printing, 27  
    screen, problems with lower resolutions, 8  
RGB channels  
    hiding, 217  
    how three channels become four, 444–445  
    switching between, 422  
RGB color, converting to, 167  
RGB Color command, 167  
RGB file, converting to CMYK for  
    commercial reproduction, 436–446  
RGB versus CMYK, 424  
    (*see also* Video Lesson 12 on the CD)

Rotate Canvas dialog box, 141  
rotating images, 138, 289, 294  
rbylith, 215  
    overlay, viewing mask as, 310  
ruler increments, 340  
Rulers command, 339  
Ry G. Cbm, 69

## S

Sampling option, 189  
Saturate mode option, 186  
Saturation Jitter, 169  
Saturation value, 50  
scaling images, 136  
scaling layers, 293  
scaling vectors, 331  
scanned line art, coloring, 162–171  
scanning multiple images, 136–139  
scarring, 194  
Scatter value, 169  
scratched images, repairing, 192–202  
scratches, 266  
Screen blend mode, 295, 312  
    (*see also* Video Lesson 10 on the CD)  
screen image, matching print output to, 435  
screen resolutions, problems with

  - brush engine
  - brush stroke randomness

training CD, Lesson 6 (*continued*)

- brush tool
- hardness settings, brush
- jitter options
- operations overview, 160
- pen pressure control
- Roundness Jitter
- Shape Dynamics options

Video Lesson 7: Just What is Masking?

- Alpha channel
- Channels palette
- color fringing
- Color Range command
- edges
- extractions
- Extract command
- eyedropper tool and masks
- Filter menu
- halos
- Inverse command and masks
- masking
- operations overview, 206
- paint bucket tool

Video Lesson 8: Filtering Basics

- blend mode
- Emboss filter
- Fade command
- filters
- Filter menu
- focus, adjusting
- operations overview, 246

Video Lesson 9: Layers at Work

- alpha channels
- background layer
- clipping group
- colorizing
- color picker
- combining items into groups
- converting floating selection into independent layer
- floating selections
- gradient tool
- History palette
- Layer menu
- layers
- operations overview, 280
- reducing hotness
- reflected gradient
- Solid Color command

Video Lesson 10: Vector-Based

- Objects
- fonts
- Image Size command
- layers
- Multiply blend mode
- operations overview, 330
- path outlines
- scalability
- shape layers
- shape tools
- type alignment
- type size
- type tool
- vector-based objects

Video Lesson 11: Introducing

- Effects
- appending layer styles
- Bevel and Emboss effect
- Color Target style
- Drop Shadow effect
- Duplicate command
- effects
- Gradient Overlay effect
- Layer Style command
- operations overview, 376
- Overspray Text effect
- replacing layer effects
- Satin effect
- Shiny Blue Metal style
- Stroke Overlay effect
- Styles palette
- Style libraries
- Text Effects 2 library
- Yellow Gold Bevel Indent style

Video Lesson 12: From Screen to

- Print
- additive color model
- Channels palette
- color theory
- Merge Channels command
- mixing channels
- multichannel documents
- operations overview, 422
- professional color separation
- RGB versus CMYK
- Screen mode
- Split Channels command
- subtractive color model

transformations

- lost pixels and, 294
- reapplying, 297
- transforming layers, 291–305
- Transparency Shapes Layer checkbox (Layer Style), 398
- two-button mouse, 9
- type alignment, 334
  - (*see also* Video Lesson 10 on the CD)
- typefaces, 334
- type tool, 333
  - (*see also* Video Lesson 10 on the CD)

## U

- Undo Color Sample command, 212
- Undo State Change command, 261
- Unflagged Files command (File Browser), 14
- Unsharp Mask filter, 248, 250–257
  - Amount value, 252, 256
  - how it works, 254–255
  - Radius value, 251
  - Threshold value, 252
- Use Previous Layer to Create Clipping Mask option, 177, 412

## V

- Variations command, 64, 405
  - Fine/Coarse slider, 70
  - keyboard shortcut, 67
  - typical use of, 66–71
    - (*see also* Video Lesson 3 on the CD)
- vector-based objects, 331–332
  - (*see also* Video Lesson 10 on the CD)
- Vector Mask Hides Effects checkbox (Layer Style), 398
- vectors, scaling, 331
- Vertical Centers command, 298
- video lessons (*see* training CD)
- vintage photograph, working with, 266–276
- visible color spectrum wheel, 69

## W

wand tool (*see* magic wand tool)  
Warp Text command, 369  
white arrow tool, 125  
white balance, 83  
    (*see also* Video Lesson 3 on the CD)  
White Balance option (camera raw  
    files), 83  
window controls, 9  
windows, arranging, 38  
Wood burn gradient, 80  
workspace, creating and saving, 10

## X

X-ray invert gradient, 80

## Z

zooming in/out, 4  
    with magnifying glass, 4  
    (*see also* Video Lesson 1 on the CD)
